Note: All statistics in this table relating to dwellings, employment, area of crops, and sheep, are ESTIMATES only. In particular, rural statistics should be regarded as approximations as the information has been collected on a different basis, and subsequently converted to a Local Government Area basis. Changes in population of individual Local Government Areas and Statistical Divisions are based mainly on recorded changes in the number of dwellings. Allowance is made for changes in occupancy of larger Government hospitals, hotels, and camps; no allowance is made for temporary movements such as holiday trips etc. See also note to Table 7. Migratory population is included in Remainder of State.

- (a) Average employment during the year, including working proprietors, classified according to location of factory.  
 (b) Includes owners, occupiers, etc., but excludes temporary workers.  
 (c) Total expenditure on roads in each area by all authorities, other than expenditure on maintenance by Highways Department—amounting to £1,181,305 (Metropolitan £171,249, other incorporated areas £1,010,056).  
 (d) Expenditure by Local Authorities only—includes contributions to hospitals, upkeep of cemeteries, garbage collection and disposal, etc.  
 (e) Rated on Unimproved Values.  
 (f) Combined figure for Upper North unincorporated and Remainder of State shown under Upper North unincorporated.  
 (g) Combined figures for D.C.'s Peake and Coonalpyn Downs and Murray Mallee unincorporated shown under D.C. of Peake.  
 (h) Details are for "Primary" Statistical Divisions (see map, page 4). Because of this, figures for Local Government Areas do not add to Statistical Division totals and no information can be given for unincorporated areas.  
 (i) Included in Remainder of State.

(a) Covers all contractors and sub-contractors and employees of contractors, subcontractors, and Government instrumentalities, who on the last working day in the month were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs, and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.

## No. 102—Consumer Price Index: Adelaide

(Base of Each Group : 1952-53 = 100)

For current statistical purposes the Consumer Price Index replaces both the "C" Series Retail Price Index and the Interim Retail Price Index. The list of items is more extensive than formerly and hence the new Index measures more accurately quarterly variations in retail prices of goods and services representing a high proportion of the expenditure of wage earner households.
